

HEART DISEASE QI PROJECT

COHORT 1 ACHIEVEMENTS

ARIZONA DEPARTMENT
OF HEALTH SERVICES

Arizona  Alliance
FOR COMMUNITY HEALTH CENTERS
Primary Healthcare for All

American
Heart
Association®

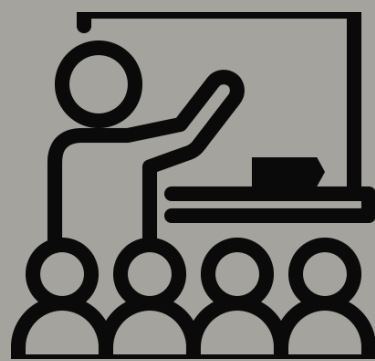

Trained 50+ MAs
on proper blood
pressure measurement
protocol and workflows
to help providers with
timely and accurate
HTN diagnosis

Created registries to
identify high-risk
patients and
enroll them in an
intensive care
management program

Standardized a team-
based approach
utilizing a provider,
registered dietitian and
community health
worker to increase and
track patients' abilities
to self-manage

Provided the AHA's
"Know Your Heart" train-
the-trainer education to
35+ CHWs so they
could facilitate group
heart health education
to patients in Spanish
and English

Improved outcomes with various
heart disease-related UDS measures,
including HTN, CAD, A1c and BMI
